## Post Treatment Recommendations

1. Please avoid direct sunlight and if exposed, use sunblock SPF 30-50 regularly until next session. If there is irritation then apply every 2 hours as long as post-treatment irritation persists.
2. Avoid use of retinol products, Alfa hydroxy acids, perfumed products etc. Stick to gentle cleansers and serums until the skin has healed.
3. Mineral makeup can be worn after the procedure.
4. Avoid hot baths, showers, saunas, hot tubs etc for 48 hours.
5. Maintain moisturization of the skin.
6. Between sessions, no mechanical trimming (waxing, tweezers, electrolysis, electric epilator) allowed.

## SKIN PEEL AFTERCARE
